# Ever Growing, Well Positioned.

**Barrie is evolving, and quickly. With monumental projections for population growth, the city is set to ever-evolve into a thriving economic city centre with an urban pulse.**

Barrie has seen steady, continuous expansion in the past decade; it's been a designated Ontario Urban Growth Centre since 2009. The most recent shift in priorities, working from home, a need for more space, an ever-hot real estate market outside of main metropolises – has served as a major catalyst to that growth. Barrie's population, which sat at 151,043 in 2020 (a jump of over 10,000 since the 2016 Consensus) is forecasted to climb to 171,900 in 2022, and nearly double by 2051.

Consequently, there's a lot on the horizon for Barrie. Development is ramping up – in 2020, the city added the equivalent of 18 football fields

(nearly 100,000 square metres) worth of floor area toward industrial, commercial and institutional space according to the municipality's 2020 Growth Report. A total of 1,647 building permits were issued, 1,343 of which were for residential projects.

The city has also put a major focus on multiculturalism and inclusivity initiatives. Plus, locals, old and new, can take advantage of Barrie's ongoing plans to expand public art and green spaces, and improve parking, transportation and walkability.

# Ever Enduring, Well Designed.

It's all in the details. Our Designed for You difference means you work with our design consultants in our Décor Studio to hand pick from a wide selection of finishings – countertops, cabinetry, tiles – and you can opt for design and structural upgrades so your space feels customized to you.

## ELEGANT FEATURES

Exercise your eye for design when you choose which style of imported ceramic floor tiles should adorn your foyer, powder room and kitchen area, – everywhere that isn't stained oak hardwood on the main floor. Consider the high-ceilings, oak staircase and railings, superb laundry room features and a gas fireplace\*.

## OPTIONAL FINISHED BASEMENT

Opt for our finished basements which are designed for both comfort and efficiency so that your extra space – be it an office, entertainment room, gym, kids play area, or however else you choose to make it your own – is warm, peaceful and comfortable.

## GOURMET KITCHEN

Think of your mornings at the kitchen island with a flush breakfast bar\* while selecting your kitchen cabinetry, offered in a variety of furniture-quality finishes, styles and colours. You'll also pick the stone for the kitchen countertops.

## LUXURY BATHROOMS

Choose from a variety of furniture-quality vanity cabinetry finishes, styles and colours, plus laminate countertop options, that you think best suit the bathrooms, including the primary ensuite, complete with stone countertops, freestanding bathtub, or separate shower stall\* and chrome faucets.

## HIGH TECH HOMES

Enjoy a long list of your Everwell home's enhanced energy-efficient and safety features for ultimate comfort and peace of mind. Plus, each home is equipped with the Enercare Smarter Home Essentials Package, a simple, integrated package complete with Smarter Home Hub, Programmable Thermostat, Water Leak Sensor and Doorbell with Camera.
